# Photo Taking Guide

"A picture is worth a thousand words". Therefore, it is important to ensure that your car is reasonably clean before taking the photos.

1. Drive your car to an **open space under natural sunlight**.

2. Hold your **phone horizontally (landscape mode)** while taking the pictures.

3. Kindly ensure your **vehicle is not cut off** in the picture. And also **carplate must be visible** in all photos.

Take a photo directly in front of your car!

Side profile should take up about 75% of the picture.

Angled back view with 75% of side profile.

Take a photo of rear bumper.

Take a brightly lit photo to show case the legroom.

Hop into the back seat and shoot from above a view of the legroom and dashboard.

A photo showing the legroom of the front seat.
